Omni – Access Readers

The new Omni-Access reader line is in-tune with the demands placed on modern architecture. Their contemporary design, in two shades of stainless steel, adds a subtle but elegant accent to their surroundings.

The readers, designed for secure and reliable access control, offer a broad variety of functionalities and technologies. They are ideal for mounting on door frames.

Choose either the Mifare or EM proximity technology with optional pin pad for access security.

Benefits :

- Contactless cards are easy to use and do not wear
- Mifare technology supports multiple applications on the same badge
- Fits in a modern environment with its unique design
- Stylish and elegant
- Mountable on junction boxes with optional mounting kit
- Mountable on a door mullion
- Connector block for ease of installation
- Tamper-proof through encapsulation
